Introduction

Create Avatar

Practice Scene

Principal Wild guides students through Zoo U, including getting set up and practicing.

first six scenes

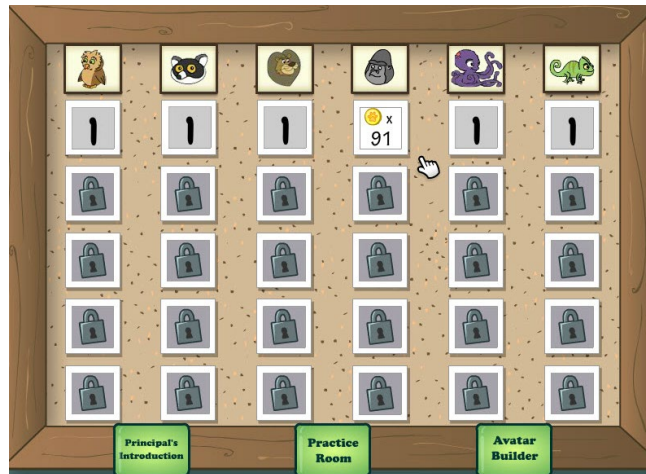

These short scenes personalize the rest of the game for each student.
They are played in order.

STUDENT PERSPECTIVE

intervention: 30 scenes, 5 for each skill

The first scene for each skill will be unlocked so students can choose where to start. If the student fails to reach mastery of a scene three times, the scene below will unlock automatically.

personalized feedback

After each intervention scene, Principal Wild provides personalized feedback on students' choices in each part of the scene. The gold coins denote clips in which Principal Wild will give positive feedback, and the gray coins denote clips in which he will provide constructive criticism.

Students choose which feedback to watch, so encourage them to watch both the positive and constructive feedback so that they can make improvements the next time they play.
